

SALOON

A new line characterized by a natural aspect which reminds old wooden floor style and give the room such versatility that adapts both to classic furniture, but also to the request of the most modern design.

Saloon planks, brushed and bevelled on the four sides, are available in two thickness (10 and 14 mm) and delivered in multiwidth. They are suitable also for floating laying.

Rustic selection features, such as large fibers, plastered knots and not homogeneous colours, make Saloon planks suitable for the new modern metallic colours.

FEATURES

Dimensions

thickness mm 10
width mm 90/160
length mm 600/2000
